- Music
- Travel
- Snooker
- Physical training

Youssef Naib

Engineering student · Full-stack developer

Seeking a 4–6 month final-year internship from 1 February 2027

Future engineer in Computer Science and Networks, Digital Development and Information Systems track, at EMSI Marrakech. I designed, built and shipped **TechZone Maroc** and **Rawa Beauty**, two online stores with their own admin back office (Java / Spring Boot, React, PostgreSQL, Docker).

ACADEMIC EDUCATION

Master of Engineering (Diplôme d'Ingénieur), Computer Science and Networks, Digital Development and Information Systems track — 2023 – 2027 (expected)
EMSI · Moroccan School of Engineering Sciences, Marrakech

Integrated preparatory cycle (2nd year), Computer Science and Networks — 2022 – 2023
EMSI, Marrakech

Preparatory cycle (1st year) — 2019 – 2020
ENSA · National School of Applied Sciences

Baccalaureate in Physical Sciences (French track) — 2018 – 2019
El Araki School, Marrakech

PROFESSIONAL EXPERIENCE

Founder and full-stack developer LIVE — Mar 2026 – present
TechZone Maroc · techzone-maroc.com · rawabeauty.com · personal venture

- Real e-commerce store, built end to end: **React 19** storefront and admin, **Spring Boot 3 (Java 17)** API.
- Same codebase live for a second store, **Rawa Beauty** (Libya): right-to-left Arabic and English, currency and carrier set per brand.
- Back office: dashboard, orders, catalogue, accounting, customers and blacklist, returns, Sendit payouts, promo codes, roles.
- Ad video studio (Remotion, FFmpeg, 10 templates); Instagram / Facebook / TikTok publishing and promotion through their APIs and pixels.
- AI WhatsApp assistant (**WhatsApp Cloud API**, **Claude API**): answers customers from live data, takes orders, tracks its own cost.
- Security (JWT, TOTP, CSRF, rate limiting); Linux VPS, Docker Compose, Caddy, GitHub Actions CI, Testcontainers and Playwright tests, 50+ Flyway migrations.

Software development intern — July 2024 · 1 month
Pharmacie Varenne · El Jadida

- Designed (UML) and built a stock management application: product inflows and outflows, inventory tracking.

Stack: C#, .NET, Git, UML

ACADEMIC AND PERSONAL PROJECTS

TikTok App
Admin back office and n8n automation workflows, orchestrated with Docker.
Spring Boot · React · n8n · PostgreSQL

Water and power outage reporting
Mobile reporting app with a web admin interface.
Android · Spring Boot · PostgreSQL

Artists – clients platform
Artists showcase their work and services; clients discover and contact them.
C# · .NET · UML · Git

Hotel management
Real-time bookings: API, WPF admin, customer website.
C# · ASP.NET Core · WPF · SQL Server

CERTIFICATES

Introduction to Java and OOP · Coursera, Univ. of Pennsylvania

React Basics · Coursera

Software Design and Project Management · Coursera, HKUST
